Section	Presenter/# (5=Excellent)	Comments
Project Statement At a high level, what was your tasks? How does this lab relate to the course as a whole?		
Lab Goals and Objectives What technical goals did you aim to accomplish?		
Technical Approach What thinking guided your process? What issues arose? How did you deal with them?		
Results: What did you accomplish (or what failed--both can be important)?		
Lessons Learned What would you do differently next time? How could we improve the lab?
