Scope Mode (Top left corner)

- Arrow keys to control cursor
- Knob to control cursor/selected value
- Lit up button indicates cursor location
- “Scope Channel” or “Scope Auto Measure”
- Press “Done” to exit a submenu
- Press “Select” to click whatever is currently toggled by the cursor

Set this to “scope” for scope mode

When in doubt, “Autoscale”

“Run” + “Repetive” for the display to continuously update!
