Problem Set -1

Due: At quiz, March 19, 1997.

Problem 1. Discuss the course lectures. Are they too fast? Slow? Too many examples, not enough ideas, or vice versa? What would you like to see changed?

Problem 2. Discuss the recitations. Are they helpful review? Are they too fast? Slow? Too many examples, not enough ideas, or vice versa? What would you like to see changed?

Problem 3. Discuss the tutorials. Are they too hard? easy? dull? (more than one answer possible). What would you like changed?

Problem 4. Discuss the problem sets.

(a) How much time do they take on average, and how does this compare to your other courses?

(b) Which of problem sets 1–5 were too hard? too easy? interesting?

(c) In general are the sets too hard? Easy? Do they teach the material? Do they overteach the material? How should they be changed?

Problem 5. Discuss the course readings, textbook and handouts. Useful? Too much detail/not enough?

Problem 6. Anything else you'd like to say about the course? Any suggestions for how to improve it?
