Massachusetts Institute of Technology | Handout 0
6.042J/18.062J: Mathematics for Computer Science | February 1, 1998
Professor Albert R. Meyer

Student Information Form

Please return this sheet to us at the end of lecture today.

We use information requested below to determine recitation section assignments. We will also provide an online class directory to help you find classmates to collaborate with on problem sets. If you do *not* want to be listed in the online directory, please write "NO LISTING":

Last-name, First-name Middle ______________________________

Department and year ______________________________

Email address ______________________________

Phone number ______________________________

Each student must attend a two-hour recitation/tutorial on Friday. To schedule these, we ask you to **cross out** those time slots in conflict with your *nondiscretionary* commitments (eg, another course, team practice) and **circle** your preferred time slots; you may write numbers beneath the circles to indicate order of preference. Section assignments will be distributed in lecture and posted on the course web page on Thursday, February 5.

8–10 9–11 10–12 11–1 1–3 2–4 3–5 4–6

Please list all Course 18 and Course 6 Math/Theory subjects you have taken or are currently taking. Circle those you are currently taking.
