Planning Rubric for Lab Briefings

suggested process / content	who	steps / main points
Teamwork Know each others' strengths and goals. Support each others' growth and success	all	
Schedule Planning? Delegating? Meeting? Practicing?		
Project Statement At a high level, what were your tasks? How does this lab relate to the course as a whole?		
Lab Goals What technical goals did you aim to accomplish?		
Technical Approach What thinking guided your process? What issues arose? How did you deal with them?		
Results What did you accomplish? What failed? How best can you show this?		
Lessons Learned What would you do differently next time? How could we improve the lab?		
Slides Meet minimal acceptable conditions? Necessary? Sufficient? Clear?
